

S EYE BODY CAMERA

- No LCD
- Front Big REC Button
- 9-14 Hours Recording Time
- 110-120 Gram Lightweight
- Good Video Performance
- AES256&RSA2048 Encryption
- Accurate GPS Playback
- WIFI: Support AP and STA Mode, HFS and P2P

1. No LCD

Having No LCD screen means better data security, if the camera is lost nobody can view footage on it unless they have the password with the cam manager.

2. Front Big Button

With a large front Red Ring LED recording button making it more noticeable and easier to start recording.

3. 9-14 Hours Recording Time

S Eye can record 9-14 hours under different resolutions from 1296P to 480P. It would be enough for police officer's daily usage. With 4 battery indicators, you can clearly know the remaining battery.

4. 110-120 Gram Lightweight

With size 80*56*25mm, weight 120 gram, S Eye is smart and lightweight. Easy for long time wearing during law enforcement.

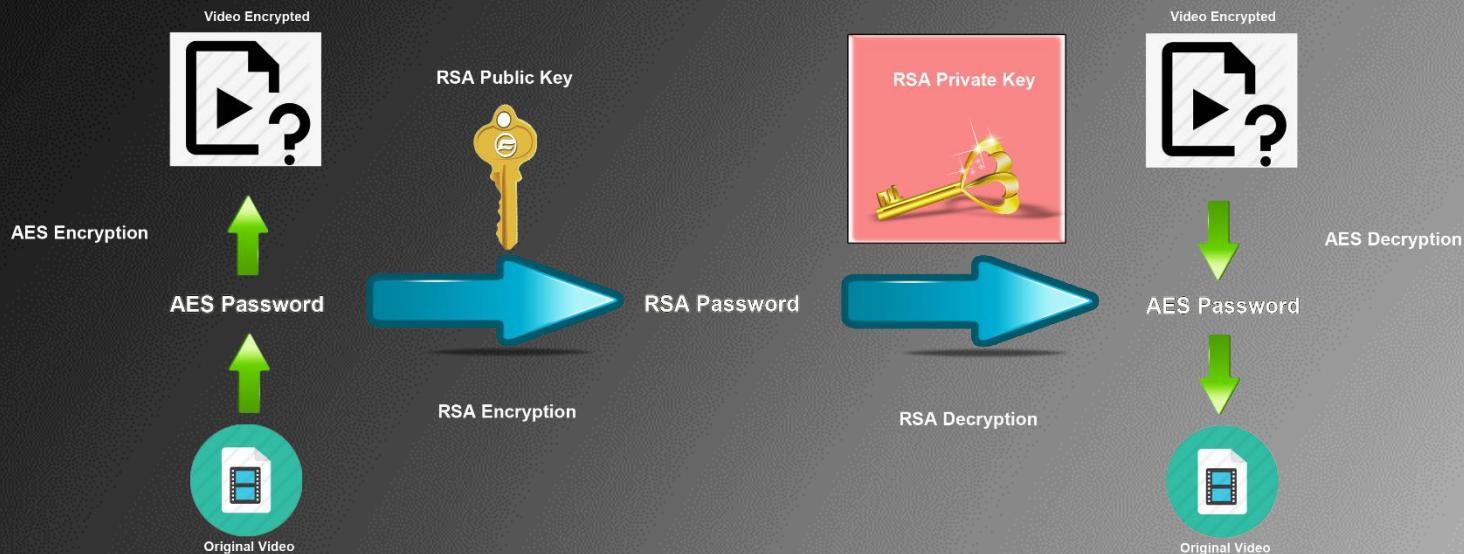

5. Good Video Performance

With 4MP 1/2.9 inch sensor, 6 glasses lens, excellent image SoC, S Eye's video quality is better than most of the competitors.

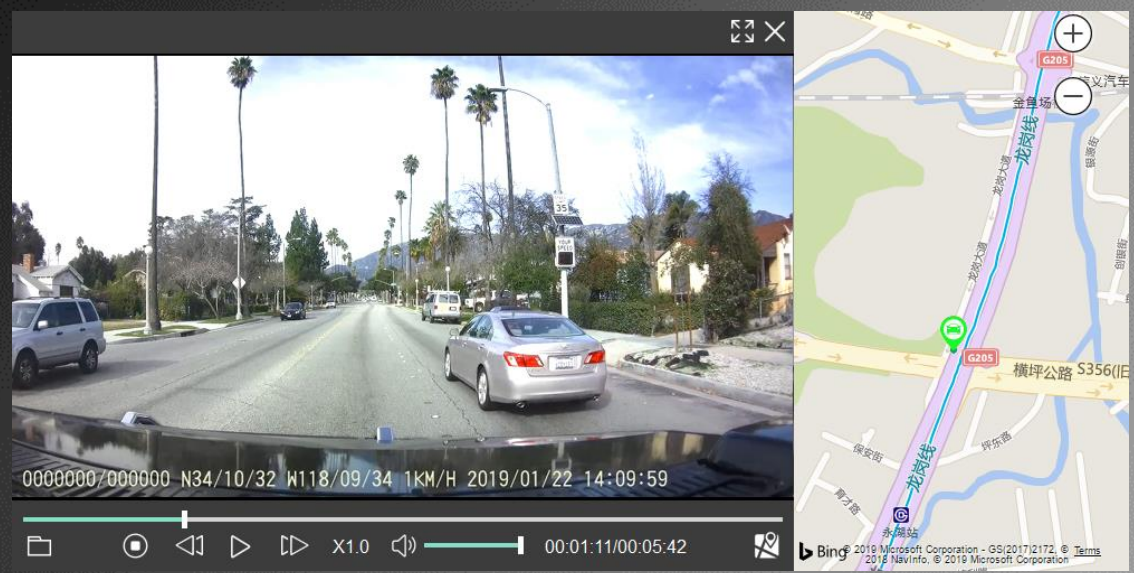

6. RSA2048 Encryption

Videos will be double encrypted with AES256 and RSA2048. Offender will not be able to access to videos even though they break the camera. Only users with RSA Private Key can open videos. It is Shellfilm's unique feature in the market.

7. Accurate GPS Playback

Built –in strong GPS module, S Eye receive GPS signal in less than 1 minute. You can playback video with GPS track on MapVideo Player.

8. Play videos on Phone with Wifi

You can view videos by Wifi on your Phone. Supporting live streaming video (RTSP/HFS/P2P) in LAN.
